NAME: **MANU PRATAP SINGH**

Designation: Graduate Engineer Trainee

E-mail: Manu.singh@coforge.com

Emp Id: 85010954

Mob. No: +91 7500010305

Experience: Graduate Engineer Trainee (GET)

Coforge | Jun 2026 - Present

Location: Greater Noida, India

PROFESSIONAL SUMMARY

- **Computer Science and Artificial Intelligence (CSAI)** graduate-in-progress with knowledge of software testing, quality assurance, and software development fundamentals.
- Currently working as a **Graduate Engineer Trainee** at Coforge, undergoing training in software testing and automation.
- Knowledge of **manual testing concepts, Software Testing Life Cycle (STLC)**, test case design, defect reporting, and test execution.
- Familiar with Selenium WebDriver, Playwright, Pytest, TestNG, Cucumber, Postman, and REST Assured.
- Hands-on project experience in **end-to-end web test automation** using Python, Playwright, Pytest, **Page Object Model (POM)**, and **CSV-based data-driven testing.**
- Developed an understanding of **CI/CD workflows using Jenkins** and version control practices with Git/GitHub to support efficient and reliable software testing.
- Applied Python programming concepts and libraries such as **Pandas, NumPy, and Matplotlib** for data processing, numerical analysis, and visualization.
- Proficient in Python, Java, JavaScript, SQL, and C/C++, with a strong understanding of **Object-Oriented Programming (OOP), DBMS,** and version control using **Git and GitHub.**

TECHNICAL SUMMARY

Technologies/ Frameworks	Python, Java, Selenium WebDriver, Playwright, Pytest, TestNG, Cucumber, REST Assured, Pandas, NumPy, Matplotlib
Domain/Industry	IT Services, Software Testing, and Quality Assurance
Build Tools	Maven, Jenkins
Internet Technologies	HTML5, CSS3, JavaScript, REST, APIs
Web/Enterprise Servers	N/A
Databases	MySQL
Version Control	Git, GitHub
Loggers	N/A
Operating System	Windows
IDE	VS Code, Eclipse, Jupyter Notebook

Software Methodologies	SDLC, STLC, Agile, Waterfall, BDD, Manual Testing, Automation Testing
Data Visualization	Microsoft Power BI

CLIENT / PROJECT DETAILS

Client Name : Internal Training Project (Automation Exercise)	**Duration : 06-26 to 08-26**
Team Size	2
Technologies	Python, Playwright, Pytest, Page Object Model (POM), CSV, Git
Role	Test Automation Engineer - Academic Project
Project Overview	Developed a Java-based Selenium automation framework using TestNG, Maven, and Page Object Model (POM) to automate end-to-end e-commerce workflows, including login, product search, adding products to the cart, cart validation, and logout.
Roles & Responsibilities	• Developed reusable automation scripts using Java and Selenium WebDriver. • Implemented the Page Object Model (POM) for maintainable test automation. • Automated login, product search, add-to-cart, cart verification, and logout scenarios. • Used TestNG assertions and test execution features to validate application functionality. • Captured screenshots for debugging and analysed test execution results. • Managed project dependencies using Maven and maintained code using Git/GitHub.

CERTIFICATIONS

- Cybersecurity Foundation – Palo Alto Networks Academy
- Oracle Cloud Infrastructure (OCI) 2025 – AI Foundations Associate
- AI Sparks 2.0 – Coforge
- Responsible use of AI - Coforge

EDUCATIONAL QUALIFICATIONS

- **B.Tech** from GL Bajaj Institute of Technology and Management, Greater Noida – 2027.
- **Intermediate** from St. Francis Inter College, Hathras – 2023
- **High School** from St. Francis Inter College, Hathras – 2021
